### IP44 LED BATHROOM MIRROR LIGHT

This mirror light features a frosted acrylic lampshade, which scatters the light extensively, giving a diffused yet strong glow. With an integrated driver, it is designed for mains voltage connection. 300mm or 500mm long head of the fitting enable you to match different sizes of cabinets or mirrors and ensures an even illumination across them as well. IP44 waterproof rating makes it suitable for mounting within zone 1 and zone 2 areas. It is sure to offer an option for two kinds installation, can be fixed to a horizontal surface or by using the additionally-ordered mirror mounting fixing, it can be clipped on to the top of the mirror. Available in warm white, neutral white and cool white LED, allowing you to create the perfect mood lighting to suit your cabinetry.
